¿Qué es COVID-19?

- Es una nueva enfermedad que se extiende por todo el mundo.
- Su apodo es coronavirus.

¿Cómo se contrae?

- Alguien con COVID-19 le da sus gérmenes.
- Cuando alguien tose o estornuda, sus gérmenes se elevan en el aire, en usted y en otras cosas.
- Los gérmenes ingresan a su cuerpo a través de la boca, la nariz y los ojos.

¿Qué pasa si uno lo tiene?

Fiebre de 100.4
o más

Tos

Dificultad para respirar

Si estas cosas le suceden, no significa que usted tiene coronavirus. Mucha gente tiene fiebre o tos. Podría tener un resfriado o gripe.

Si estoy enfermo, ¿cuándo debo llamar al médico?

- Llame si ha estado fuera del país.
- Llame si ha estado con alguien que tenga el virus.
- Llame si ha estado en un lugar donde las personas con COVID-19 recibieron tratamiento médico

Llame a su doctor, no vaya a la oficina.

¿Qué tan enfermo se pone?

- La mayoría de las personas no se enferman mucho. Es como tener un resfriado o la gripe.
- Algunas personas mayores pueden enfermarse gravemente. Algunas personas con discapacidad pueden terminar en

How can I stay healthy, or not get it?

Wash your hands.

- Use lots of soap and water.
 - Wash for at least 20 seconds. If it helps, count to 20.
 - Wash after using the bathroom or being in public (like going to a store).
- If soap and water are not available, use hand sanitizer. Know that washing well with soap and water is still better.

Cough or Sneeze into your elbow.

Coughing and sneezing into your elbow stops germs from going into the air and onto your hands.

Try not to touch your face

- Do not rub your eyes.
- Do not touch your mouth.
- Do not touch your nose.

Remember, this is how germs get in your body.

If you have to touch your face, do it with a tissue or in the shower.

Try to keep your hands busy:

- Tap your knee.
- Click a pen.
- Use a fidget spinner.
- Use hand sanitizer.
- Doodle.
- Squeezing a stress ball.
- Play a game on your device.

If I am sick, what should I do?

Call your doctor. Do NOT go to a hospital or Urgent Care.

Stay Home

Use tissues,
then throw
them away

Avoid
contact with
others

Keep objects
and surfaces
clean

Call your doctor again if you are getting worse. Call back if you are having trouble breathing. Do what your doctor says.

If my staff person is sick, what should I do?

- Doctors say if you are sick stay home. Do not go to work. A sick staff person should stay home until they are well.
- Tell your team. Tell your case manager.

What do I do if someone I live with gets sick?

Someone else living in your home could get coronavirus or think they have these germs in their body.

- Stay at least 6 feet away from the sick person.
- Do not touch surfaces or food that the sick person has touched.
- Keep washing your hands well.
- **Call your case manager.** There may be someplace else you can stay for a few days.

How do I say hello to my friends?

- No handshaking. No hugging. No fist bumps.
- Smile, bump elbows, text, call, message

Where can I go these days?

Stay away from large groups.

- No movie theaters or malls
- Try to avoid public transportation.
- Go to the grocery store during the day when it is not crowded.

Do not share food or drinks.

Why is it important to do all of this?

- You don't want your grandparents to get sick, do you?
- Some people with disabilities get sick really easily. You would feel awful if you got your friends or family sick.

Is there a shot to get so I do not get sick?

No. There is not a shot or vaccine to stop the coronavirus.

Is there a medicine?

- There is no medicine for COVID-19.
- Take medicine used when you have a cold or flu.
- Drink lots of water. Get plenty of rest.

What do I say to my friends if they get scared, or very nervous?

- Talk to someone you trust.
- You can show them this booklet for ideas on what to do.

I have a job. I am worried about missing work.

- If you are sick, you need to stay home.
- Health comes before money.
- Tell your boss you do not feel well.
- If you are worried about money, talk to your family, friends or team.

Make a plan in case you have to stay at home.

- Who can go food shopping for you?
- Who will call to check in on you?
- What to do if your staff calls in sick?
- Make sure you know your doctor's phone number.

Talk to your self-advocacy group, friends, family, or support staff about your worries and concerns.

If you have been near a person with Coronavirus, you may be asked to stay home. A person can have coronavirus in their body and not feel sick. It takes a few days to get sick. This virus spreads very easily. You don't want to give it to others.

Thanks to the Vermont Developmental Disabilities Council for providing guidance and support to create this booklet. This publication is supported in part by a cooperative agreement from the Administration on Intellectual and Developmental Disabilities, Administration for Community Living, U.S. Department of Health and Human Services.

Grantees undertaking projects under government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore, necessarily represent official Administration on Intellectual and Developmental Disabilities policy.

The Self-Advocacy Resource and Technical Assistance Center (SARTAC) seeks to strengthen the self-advocacy movement by supporting self-advocacy organizations to grow in diversity and leadership. The resource center is a project of Self Advocates Becoming Empowered (SABE). SARTAC <https://selfadvocacyinfo.org/> is a Developmental Disabilities Project of National Significance, funded by the Administration For Community Living – Administration on Intellectual and Developmental Disabilities (AIDD).
