

All Delawareans ages 12+ are now eligible for the COVID-19 vaccine

DE encourages residents to take first vaccination opportunity available to them; only the Pfizer vaccine is FDA-authorized for ages 12-17

Delawareans 12+ may obtain vaccination through the following channels

Pharmacies

- View list of pharmacies at de.gov/pharmacies
- Pharmacies have their own waitlist and scheduling systems

Public Health Clinics & State of DE vaccination events

- Walk-in appointments are available at the DPH clinics (additional information included on the "Where Can I Get My Vaccine?" page)
- Visit the "Where Can I Get My Vaccine?" page (<https://coronavirus.delaware.gov/vaccine/where-can-i-get-my-vaccine/>) for the latest information on vaccination opportunities and sign-up instructions

Medical providers

Includes primary care & specialty providers, Federally Qualified Health Centers, and hospital systems

- Call your provider for an appointment; if they are not vaccinating patients, they will provide your info to a health care system which will contact you to schedule an appointment
- Some sign up and self-scheduling links for hospitals and FQHCs are also included on the "Where Can I Get My Vaccine?" page

Community-based events

- Sign-ups for these local events are coordinated by community organizations

Additional opportunities for key groups

Frontline and other essential workers

- Some employers may organize vaccination opportunities
- Employers can reach out to VaccinePlanning@delaware.gov if interested in identifying a vaccinating partner for employees

Long-term care residents and staff

- Residents and staff can be vaccinated by LTC staff if the LTCF is an enrolled provider
- Staff may also make an appointment with [Walgreens](https://www.walgreens.com)

Questions about accommodations?

- Call 1-833-643-1715 (option 3)
- Email vaccine@delaware.gov
