

If you have a disability or are an older adult with questions about the COVID-19 vaccine ...

We'll meet you where you are.

“Is it safe even with my condition?”

“Will the vaccine clinic accommodate my needs?”

“What if I can't get to a vaccine site?”

The Delaware Division of Public Health (DPH) has taken great care to make sure you have all the answers you need — as well as the support that makes the COVID-19 vaccine accessible. **DPH will meet you where you are — to help you get the COVID-19 vaccine.**

For COVID-19 vaccine information and personal vaccine support developed especially for individuals who have a disability and the people who care about them, visit **VaccineAccessDE.com** or call **1-833-643-1715**.

What everyone should know about the COVID-19 vaccine.

- Millions of people have received the COVID-19 vaccine safely.
- No corners were cut in vaccine development.
- The COVID-19 vaccine does not infect you with the virus.
- Vaccines are extremely safe and effective, even against variants.
